

Tatreez 101 Workshop

Are you interested in learning the Palestinian art of ‘tatreez’ (embroidery)? Did you know that beyond artistic and cultural beauty, the act of stitching and certain tatreez patterns hold significance to the struggle against the occupation of Palestine? This workshop will give participants an overview of the role that tatreez plays in the Palestinian struggle against both erasure and appropriation and will provide tatreez lessons so that you yourself can keep a piece of Palestinian heritage alive.
